You're Welcome Day
November 25

November is here, my favorite time of year because I have a lot to be thankful for, as do the staff. Please see below.

Thank you all who brought in candy for the kids at Halloween.

Thank you to everyone who attended our quarterly family support meeting.

Happy Thanksgiving to all of you, and I am so thankful for each and every one of you.

You are all invited to a Thanksgiving brunch on Nov. 23rd, Wednesday, at Noon. Good food and wonderful music by Royce. Please come and share what you are Thankful for?

I hope all of you have a great Thanksgiving. Please let staff know if you are taking your loved one out on Thanksgiving Day.

Sincerely,
Michele Nixon & Harmony Staff

Alzheimer's worsens over time. Alzheimer's is a progressive disease, where dementia symptoms gradually worsen over a number of years. In its early stages, memory loss is mild, but with late-stage Alzheimer's, individuals lose the ability to carry on a conversation and respond to their environment. Alzheimer's is the sixth leading cause of death in the United States. Those with Alzheimer's live an average of eight years after their symptoms become noticeable to others, but survival can range from four to 20 years, depending on age and other health conditions.

Alzheimer's is not a normal part of aging, although the greatest known risk factor is increasing age, and the majority of people with Alzheimer's are 65 and older. But Alzheimer's is not just a disease of old age. Up to 5 percent of people with the disease have early-onset Alzheimer's (also known as younger-onset), which often appears when someone is in their 40s or 50s.

Help?

Do you know anyone that would come in and do perms for some of our ladies?

Do you have a family member that has talent, music etc?

Invite them to call or stop by and talk to me so we can invite them to come do something special for our loved ones.

Mark your calendars.

November Birthdays

Scorpios born from November 1 to November 21 enjoy intense and dramatic personal relationships. Even young Scorpios are thought to be wise beyond their years, with deep emotions and sensitivity. If you were born November 22 to November 30, you are a Sagittarius. Sagittarians are truth-seekers, intellectuals, and need a lot of room to roam for exploration.
